

Our Audit Shield Service For Your Protection

What is audit activity?

Audit activity includes any audit, enquiry, investigation or review which is instigated by the Australian Taxation Office (ATO) and other relevant government agencies to ensure compliance with various tax and legislative requirements.

How common are audits, enquiries, investigations or reviews?

The ATO and other government agencies continue to focus on audit activity and are consistently provided with additional resources for this purpose. Now more than ever you are at risk of being selected for an audit, enquiry, investigation or review.

What is the Audit Shield service and why should it be considered?

Our Audit Shield service provides a fixed, cost effective solution to guard against these unbudgeted costs.
